

YOUR FREE GUIDE TO BUYING A PROPERTY IN CYPRUS

Have you been dreaming of **buying a property in Cyprus?** Now is an excellent time to buy an apartment or villa in Cyprus with a favorable exchange to many currencies and considerably lower prices than they were a few years ago. This brief guide outlines what we consider to be some of the more important aspects of **buying a property in Cyprus.**

It is in bullet form for easy reading and we would be happy to answer any questions you may have on **buying a property in Cyprus.**

- Ensure you are aware of **ALL** the buying costs and obtain fixed prices from your solicitor
- **NEVER EVER** use the solicitor recommended by the property developer or seller
- Choose your location carefully, **investment properties** don't normally make good permanent homes (noisy holiday makers etc) and vice versa
- Mortgages are generally easier to obtain on off plan properties and require **lower deposits** than resale properties
- It is normally easier to use the bank chosen by the developer for your mortgage as any other bank will require a **guarantee** from the developer which you would pay for
- Ensure the contract of sale allows for a full refund if you are **unable to obtain a mortgage**
- Ensure the contract of sale has a **penalty clause for late delivery** by the developer and a fixed timescale for submission of title deeds
- Resale **properties with title deeds offer less risk** than off plan properties or resale properties without title deeds
- The majority of the **VAT** should be available for **reclaim** on off plan properties if it is to be your **main residence**
- Don't be persuaded to buy a property solely on the basis of a **proposed attraction** for the area (Golf Course, Marina, F1 Motor Track, Disney Theme Park etc) as things move very slowly in Cyprus and the attraction may never be built
- **DO NOT** buy in **Northern Cyprus** unless you are prepared to lose 100% of the property cost
- Think long and hard before selecting a mortgage in a currency which is different to your income currency as many buyers have lost heavily with **Swiss Franc mortgages** in recent years
- Ensure the contract of sale includes a **full specification** with property sizes, materials to be used, communal facilities and management charges etc if it is an off plan property
- Check out **completed properties** by your chosen developer and preferably two or three years after they were completed

- It is currently a buyers' market the world over, haggle with the seller and get the developers to agree to **extras** such as air con in all rooms, white goods, central heating (if you plan to live in the property all year round) and furniture packs etc
- In addition to obtaining the lowest possible price negotiate hard on the **payment terms**, minimal (refundable) reservation fee, low deposit and lowest possible stage payments for off plan properties
- The contract of sale should also include a provision for withholding the final payment until **snagging** is complete and retention until title deeds are obtained by the developer
- Check what **guarantees** are being offered with the property.
